Projects

Guess My Number Game (Personal Project)

A number guessing game is a simple guessing game where a user is supposed to guess a number between 0 and 20 in a maximum of 5 attempts. The game will end after 5 attempts and if the player fails to guess the number, then he loses the game.

CRUD Web Application (Login + Registration) by Using Servlets, JSP, JDBC and MySQL

In this Web Application, Users can be able to create data, have access to the data in the UI by reading the data, update or edit the data, and delete the data. CRUD is an acronym for CREATE, READ, UPDATE and DELETE which are basic functions of persistent storage. CRUD operations can use forms or an interface view to retrieve and return data from a database.

COMPARISON OF AIR QUALITY INDEX IN DAVANGERE CITY BEFORE, AFTER AND DURING LOCKDOWN (Academic Project)

-Particulate matter is one the most important parameter having the significant contribution to the increase in air pollution. So, in order to prevent us to expose to air pollution we need to predict air quality priorly and take necessary action.
